EDUCATION

University of California, San Diego (UCSD) QS Top100 — Sep 2024 - Apr 2026
B.A. in Economics, Minor: Data Science — San Diego
- Relevant Coursework: Econometrics, Machine Learning, Data Visualization, International Trade
- GPA: 3.14

American University (AU) — Aug 2022 - Jun 2024
Business Administration
- GPA: 3.82/4.0

Honorary awards:
2023 Dean List, 2024 Dean List, NEC National Economic Challenge, Micro-Business Entrepreneurship Competition First Prize

PROFESSIONAL EXPERIENCE

Citi Bank — Jul 2025 - Oct 2025
Quantitative Intern
- Utilized Python (Pandas, NumPy) to process millions of transaction data, I constructed and systematically backtested style factors such as value and momentum, thereby providing a solid quantitative foundation for multi-factor strategies
- Analyzed the correlation between S&P 500 and individual stock returns based on the CAPM model, identified strategy optimization directions through regression analysis and visualization, boosting simulated portfolio annualized return

Zhejiang Zheshang Asset Management Co., Ltd. — Jul 2024 - Aug 2024
Investment Department Intern
- Independently conducted industry trend and competitor dynamics research, producing two in-depth reports through systematic analysis and proposing clear product differentiation strategy recommendations based on findings
- Quantitatively tracked core operating metrics of eight comparable companies, compiling monthly benchmarking briefings
- Participated in five founder/executive interviews, synthesizing key business insights to provide direct input for investment decisions

Grant Thornton — May 2024 - Jul 2024
Audit Intern
- Collected and analyzed five years of cross-border performance revenue and expenditure data, and created a multi-currency comparison table in conjunction with exchange rate fluctuations
- Utilized visual analysis to examine the income structure and profitability, generating core business insights that provide direct decision-making support for clients' pricing and market strategy adjustments
- Independently responsible for the financial and business analysis report in the IPO due diligence, enhancing the efficiency of retrieving key information by 40% through the establishment of an audit voucher retrieval system

PROJECT EXPERIENCE

Applied Econometrics Project – Predicting Household Wealth — Aug 2025 - Sep 2025
Project Leader
- Built and compared OLS, Ridge, Lasso, and Stepwise models to predict total household wealth using 1991 SIPP microdata.
- Performed feature selection, regularization tuning, and k-fold cross-validation to balance model interpretability and predictive accuracy.
- Conducted robustness tests (IHS transform for negative values) to validate model stability under skewed distributions.
- Improved model RMSE by 12% compared to baseline OLS; visualized prediction residuals and coefficient paths for interpretation.

Mapping Project — Jun 2025 - Aug 2025
Project Leader
- Utilized Python (Pandas, GeoPandas) to collect, clean, and integrate ACS data from over 3000 counties in the United States, while also completing geographic visualizations and establishing a comprehensive data processing workflow
- Led a team of four in developing data standards and milestones, addressing compatibility issues to ensure the project was delivered on time and of high quality, ultimately receiving the highest evaluation in the course

The Adoption of Technology in the Republic of Ghana and Its Impact on Economic Productivity — Jan 2022 - Jun 2022
Leader
- Constructed and cleaned a Ghanaian dataset on technology adoption and productivity incorporating social factors such as gender and education (integrating data from Ghana's Government Statistical Yearbook, Demographic and Health Surveys (DHS), and Development Economics journal)
- Utilized STATA to conduct a multiple linear regression analysis, revealing that the technology adoption rates among women and individuals with low education levels were significantly lower, and that there was a positive correlation between technology adoption and per capita output

LEADERSHIP & EXTRACURRICULAR ACTIVITIES

Chinese Students and Scholars Association (CSSA) — Sep 2022 - Present
Minister Event Planning and Execution
- Established an analytical framework for event data by conducting regression and root cause analyses on key metrics such as historical participation rates and user feedback, ultimately achieving a 42% increase in overall event participation rates
- Introduced standardized rehearsal plans and training processes, optimized the resource allocation model, resulting in a 25% improvement in team execution efficiency per capita

CheersYou — Mar 2024 - Jul 2025
Campus Marketing Manager
- Increased new user conversion rates by 22% by data-driven promotional strategies

SKILLS

- **Skills:** Proficient in Python (Pandas, NumPy, Matplotlib), Tableau and Excel (Pivot Tables, VLOOKUP)
- **Languages:** Fluent in English and Mandarin
